SUMMARY

Motivated Software Engineering undergraduate pursuing a Higher National Diploma in Software Engineering at the National Institute of Business Management (NIBM). Proficient in software development, database management, and modern programming technologies, with hands-on experience building web, desktop, Android, and IoT applications. A quick learner with strong analytical, problem-solving, and teamwork skills, seeking an IT Internship to gain industry experience, contribute to innovative projects, and further develop technical and professional expertise.

EDUCATION

Higher National Diploma in Software Engineering (In Progress) <i>National Institute of Business Management (NIBM)</i>	<i>Kurunegala, Sri Lanka</i>
Diploma in Software Engineering <i>National Institute of Business Management (NIBM)</i>	<i>Kurunegala, Sri Lanka</i>
NVQ Level 4 – Information & Communication Technology <i>Technical College, Wariyapola</i>	<i>Wariyapola, Sri Lanka</i>

EXPERIENCE

ICT Technician Trainee <i>Provincial Road Development Department, Kurunegala</i>	<i>2023</i>
- Installed and maintained computer hardware and software for office IT systems. - Provided technical support and troubleshooting, minimizing downtime for staff and operations. - Assisted with system configuration and routine network maintenance.	

PROJECTS

HydroFlux – IoT-Based Flood Monitoring System <i>Technologies: IoT, Machine Learning, Mobile Application</i>
- Developed an IoT-based flood monitoring system for real-time water-level monitoring and early flood warning. - Contributed to the Machine Learning Prediction Engine and Intelligence Layer for flood risk prediction. - Integrated real-time monitoring with a mobile application to deliver alerts and improve disaster preparedness. - Collaborated within a multidisciplinary team to design and integrate hardware and software components.
ChannelMe – Healthcare Appointment Management System <i>Technologies: PHP, HTML, CSS, JavaScript, SQL</i>
- Developed a responsive healthcare appointment management web application. - Implemented appointment booking and dynamic content management features. - Designed user-friendly interfaces to enhance overall user experience.
VPark – VIP Parking Management System <i>Technologies: Kotlin, Firebase, Cloudinary</i>
- Developed an Android application for VIP parking management. - Integrated Firebase for authentication and real-time database management. - Utilized Cloudinary for media storage and management.

Library Management System

Technologies: Java, MySQL

- Built a desktop application to manage books, users, and borrowing records.
- Implemented CRUD operations and database connectivity for efficient record management.

TECHNICAL SKILLS

Programming Languages: Java, Kotlin, PHP, Python, C, C#

Web Technologies: HTML5, CSS3, JavaScript, React

Frameworks & Concepts: Spring Boot, REST APIs, Object-Oriented Programming (OOP), MVC Architecture

Databases: MySQL, Oracle Database, MongoDB, Firebase Realtime Database

Tools & Platforms: Git, GitHub, Visual Studio Code, IntelliJ IDEA, Postman, MySQL Workbench

SOFT SKILLS

Problem Solving • Teamwork • Communication • Critical Thinking • Time Management • Adaptability • Continuous Learning

LANGUAGES

Sinhala – Native | English
